## Free Osteoporosis Screening

Taking good care of your health includes your bones. Osteoporosis can be prevented with early detection. At InView Imaging, we offer the most accurate screening and testing available.

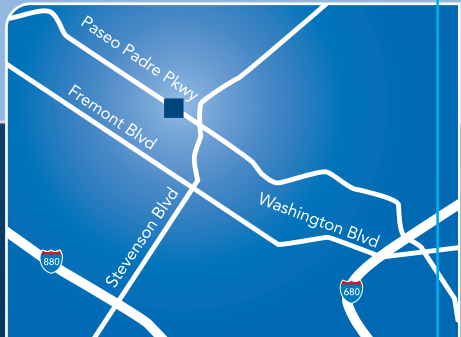

Enjoy the comfort of an outpatient setting at InView Imaging's brand new center. Screening is fast, non-invasive and will provide you with the knowledge for a healthier life.

No preparation or clothing removal required. We will be testing your wrist.

**No appointments necessary!**  
**Walk-Ins are welcome.**

Hours of Operation: Monday – Friday 8am – 5pm

**Certified Clinical  
Densitometrist  
On Site**
